

I want you to leave Wisconsin's No Call List alone. Just leave it alone. As a result of

the list we are no longer disturbed during the day (my wife's a writer) or at supper.

We don't want the 18 month extension (a year and a half!) which the corporations are asking for. It is WE who pay for our phone service, not the telemarketers.

It is

WE who should be able to decide how it will be used.
